

CIArb YMG Korea Chapter (In-person) Meet your Mentor

Building a career in international arbitration in today's market as a young practitioner can be just as challenging as it is rewarding, and genuine and practical career advice from a caring "mentor" can go a long way.

Join us for the inaugural in-person event during the Seoul Arbitration Festival organised by CIArb Korea Chapter's newly-established YMG (Young Members Group), which focuses on uniting and promoting young arbitration practitioners in Korea! Attendees will be provided with the unique opportunity to discuss the challenges in developing a career in international arbitration and the potential solutions in a safe, small-group setting with experienced practitioners, who will act as the "mentors". There will also be an opportunity to network with all the "mentors" and the other "mentees" over a relaxing breakfast.
