

# DLA Piper Webinar – The growth of mediation in commercial and investment disputes

A WEBINAR BY THE DLA PIPER'S LITIGATION & REGULATORY TEAM

DLA Piper Seoul is delighted to invite you to join us for a webinar on the use of mediation to resolve disputes in a more efficient way.

This webinar will explore how arbitral institutions have updated their rules to allow for the use of mediation both as a pre-cursor to an arbitration being commenced, and during the course of an

arbitration itself. We will explore the options available to clients, and provide some best practice guidance on how mediation can help achieve successful outcomes for even the hardest fought disputes. We will also look at the growing use of mediation in investment arbitration, and consider the advantages this offers to both investors and States alike.
