Joint Venture Disputes To Rise As Deal Volumes Grow: Causes & How To Resolve Them

IHCF and Herbert Smith Freehills are delighted to invite you to our in-person seminar on the very current topic of joint venture disputes.

Alternative deal structures, particularly joint ventures, are becoming increasingly popular amongst dealmakers across various industries, such as technology and pharmaceutical/healthcare device industries.

In this seminar, Herbert Smith Freehills partners and in-house counsels from major corporations will share their experience, explore common areas of disputes arising from joint venture transactions, and provide practical guidance on what steps companies should consider taking to best protect their interests. The seminar will cover the following:

- Our experience with joint venture transactions, particularly in relation to investments in technology and pharmaceutical/healthcare device industries
- What should a Joint Venture Agreement contain in order to minimise the risks of disputes?
- What are the common causes of joint venture disputes and how to resolve them?

**Dinner and drinks will be served so please RSVP and connect with your colleagues at the newly refurbished AC Hotel Gangnam.*
